

Automatic Pension Bureau

It has been calculated that if a man whose income remains the same year after year deposits one-third of his income each month in a savings bank at 4 percent he may retire in thirty-five years and continue to draw the full amount of his income each year. If he will deposit one quarter of his income in the same way he will be able to retire on full pay in 41 years; a fifth saved and deposited as before will enable him to cease work on full pay in 46 years, while a deposit of one-tenth will retire him in sixty years.

The Bureau of Navigation at Washington, calculates that if a sailor saves half his earnings and puts it in a savings bank that pays 4 percent interest, he will have coming to him at the end of his thirty years of government service \$29,923.00, the income from which will support him in comfort during the remaining years of his life.

Come to us and make provision for your own pension and be forever independent.

BROWN'S VICTORY MAKES HIM HAPPY

Lorimer Refuses to Comment on Case—Appears Entirely Unmoved.

Chicago, Ill., Sept. 10.—Brown was lunching at a downtown hotel when he received a telephone message informing him that the jury had arrived at a verdict in his case. He scrambled into his automobile and was whisked to the court, arriving in time to hear the verdict. His eyes filled with tears as the clerk of the court finished reading. A second later he threw his arms about attorney Chas. Erbstein, of counsel for the defense. Brown was then carried to the shoulders of friends and hurried out of the court room.

Brown appeared as greatly pleased as though he had been completely absolved from further trouble in regard to senator Lorimer's election. Apparently he had forgotten that he is under indictment on the same charge and will have to face trial at Springfield, Ill. When this subject was mentioned to attorney Erbstein the lawyer said: "Don't worry about Springfield; we will take care of it when it comes up."

"I owe my life to the lawyers that defended me," Brown exclaimed, when he caught his breath. "It is all due to their unswerving and absolute devotion to me."

State's attorney Wayman made the following statement:

"I presented the evidence and did everything that a public prosecutor

could do. The state of Illinois will reap the benefit of the prosecution regardless of the verdict. I have nothing further to say."

Senator Lorimer was attending a meeting of directors of the La Salle Street National bank when the jury announced the verdict. A telephone girl at the bank received the message, leaving her switchboard she hastened to the directors' room where she handed a paper with the words "not guilty" to John I. Hughes, a director. Mr. Hughes read the message and then handed it to senator Lorimer.

He read it, tore it up carefully, and continued his remarks to the directors. Not until the meeting had adjourned did the other directors learn of the verdict.

The senator left the bank for home without discussing the matter and refused to make any statement regarding it. He was as calm and taciturn as though nothing unusual had occurred.

MISSOURI STREET HOUSES TO GET WATER CONNECTIONS
The paving company will begin work Monday putting in the water main on east Missouri street from Kansas to Newman street. This will be done in order to allow the paving on this street to be started. It is expected that the water main will be extended by the city from Newman street east by the time the paving crew has completed the first section of the street paving.

WHAT WATER COSTS CRUCES FARMERS

Engineer Hill of the Reclamation Service Prepares Table of the Cost.

Las Cruces, N. M., Sept. 10.—The directors of the Elephant Butte Water Users' association have been trying for several months to get an itemized statement of the expense of the Leasburg dam and government canal, in order that the water users of the valley could see where and how the money is being expended. At the meeting of the directors on Thursday afternoon, a communication was received from Louis C. Hill, the supervising engineer of the reclamation service, in which he submitted the following figures:

Operation	1908	1909
Maintenance main canal and sluiceway	\$22.44	\$85.84
Maintenance change in river channel	276.48
Maintenance canal structures	195.30	278.54
Maintenance dam and structures	293.62	64.00
Maintenance water user's house	262.16	384.98
Operation	4,454.11	5,291.29
	\$5,464.11	\$6,714.75
Purchase of two horses	275.00
Small equipment	557.60	775.85
Farm unit survey	11,062.52
	\$7,296.72	\$18,554.12
Tool house, stable, fencing, right-of-way and installing water supply	1,527.19
Roads	219.63
Telephone line	388.72	195.33
Bridges	28.59	389.49
Concrete watchman's house	2,798.98	222.65
	\$10,512.01	\$21,098.45
Stores	324.42	33.00
Cement	33.00
Total	\$10,837.43	\$21,131.45
Total for the two years, 1908 and 1909	\$31,968.88

In this report engineer Hill states that "There are additional expenditures which have been made and charged to construction. This year's collections seemingly will be comparatively small, owing to lack of water in the river, and it will probably be necessary to bring some of the surplus over from past years."

Two carloads of Mexican laborers passed through Las Cruces yesterday en route to the Elephant Butte dam at Engle and work on the new railroad is being hurried as rapidly as possible.

Directors' Meeting.
The directors met at the office of secretary N. C. Prenger, with all members present but one. The president reported that arrangements had been made for the special train to carry the El Paso and Dona Ana county delegates to the irrigation congress at Pueblo and stated that it was an assured fact that Dona Ana county would be well and ably represented.

The committee on the secretary's books and the stock certificates were given additional time in which to make reports, and the statement of the reclamation service as to the expenses and cost of operation of the Leasburg dam was received, and ordered spread on the minutes.

The second payment under the Leasburg rental contract for 1910 was ordered paid upon collection from the local ditches, the latter to be notified of the amount to be paid on Sept. 15 to wit, approximately \$450. The regular meeting for October will be deferred until Friday, Oct. 7.

CRUCES WILL WORK FOR CAMINO REAL

Good Roads Delegates Go to Santa Fe to Secure Road to El Paso.

Las Cruces, N. M., Sept. 10.—The territorial road commission meets in Santa Fe today, the meeting being a good roads convention and attended by delegates from different parts of the territory. Nine delegates from Dona Ana county left last evening with the express purpose of pushing the Camino Real from Las Cruces to the Texas line. Dona Ana county has never had her share of the legislation appropriation for the improvement of roads and the delegation from here will endeavor to have at least a part of this money set aside for use in Dona Ana county. It is also planned to obtain the consent of the governor to the use of convict labor on the Camino Real, so that active work can be commenced and the road pushed to completion.

The delegates who went from here are: Oscar C. Snow, H. D. Bowman, R. H. Sims, R. E. McBride, H. H. Holt, W. A. Sutherland, Nicholas Galles, and T. Rouault, Jr. D. J. Jones, of Berino,

joined the delegation here and accompanied to Santa Fe as a delegate from this section of the county.

COLLEGE BATTALION IS NOW BEING ORGANIZED.

Las Cruces, N. M., Sept. 10.—Major George, in charge of the cadet department of the New Mexico Agricultural college, is getting the cadet battalion into shape for the winter work. Richard Quisenberry is the adjutant and the other officers at present are captains Stewart, Brownlee, Wilson and Poe. As most of last year's officers are not in college this year, new appointments will have to be made, but this will not be done until after Major George has had an opportunity to try out the new men.

EL PASOAN IS STOCKING ORGAN MOUNTAIN RANGE

Las Cruces, N. M., Sept. 10.—Louis E. Norwood, Felix Nash and a number of the boys from the T. C. outfit were in the city today on their way home with a bunch of 300 cattle. Since the recent rains the range has improved so much that Norwood, owner of the ranch, decided to stock up more heavily and purchased 500 cows in Texas. These are the animals which the outfit is taking over to the ranch, which lies about 15 miles west of Las Cruces.

FOOTBALL PRACTICE STARTS AT AGRICULTURAL COLLEGE

Las Cruces, N. M., Sept. 10.—Coach Badenoch, of the New Mexico Agricultural college, has commenced active training with the boys preparatory to the opening of the football season. This week he has had a group of about 25 men on the athletic field and before another week passes he expects to have double this number. There are only a few of last year's team present, but there is plenty of good new material and a good team is assured.

AMUSEMENTS.

THE MAJESTIC.
Manager Frank Rich came into line with a splendid bill for the big of the new season at the popular Majestic. Applause and laughter were as thick as torn tickets in the Juarez track betting shed last winter, and a few days ago the manager was put over for the first time here in "A Noah Count" from the prolific pen of Charles LeRoy. "A Noah Count" is the most pretentious production ever attempted at this house. The stage setting is elaborate, the electric effects novel, and the wardrobe new and beautiful. With the exception of the length of the show, it will compare with some of the big expensive attractions seen at the El Paso.

Miss Shattuck and chorus took four encores on "Where the Wild Winds Clink," and the illuminated stage garden was one of the prettiest electrical effects ever seen on this stage.

"Till Build a Fence Around You," by Mr. Peck and Miss Adler, won several encores.

The whistling solo by Miss Russell proved a big feature, and she was commended to whistle till she could not "pucker" any more and the "Shoes and Encores."

SCHOOLS TO OPEN MONDAY MORNING

Early to Bed and Early to Rise Will Be the Rule for School Children.

"School days, school days. Dear old golden rule days. That is the song, but not rhythmic. Readin' an' writin', an' teacher I'm sick."

See how the kids hate to go. Growl up all say it's fine, we know. But that's only the song, some fool wrote all wrong. If you doubt it, ask any old kid.

It's all over, vacation, or will be Monday. Back to school they go, all the little students of El Paso, back to the blackboard school book and "Johnny did it."

Such classics as "teacher may I be excused," and "you stay after school for that" will resound again through the school rooms of the city. To the average child there are only two great events of the year—besides circus day and Fourth of July. One is that happy hour when school "lets out" and the other that dreadful day when school "starts in."

There is always lots of fussy business when school lets out. There is speechin', and singin' and drillin'. But when school begins there is nothing but pain. "Hello, teacher," faint smile, and study, study, study! Of course there are some little El Pasoans who like to go to school, but even they shy just a little at the first day, awful time of gloom.

There will be no ceremony about school opening Monday. The last arrivals of the teachers will come today, and also some little children are returning to the city, and school.

Only one thing will happen, that anyone knows about. Rev. P. J. Rice is going to preach Sunday on "The Child's Challenge to Teacher." It will be a special sermon to parents and teachers at the First Christian church.

So dolls and baseball will be deserted Monday, and little Mary and little Willie will be back—back to "school days."
